Ransomware Attack Response – By Type

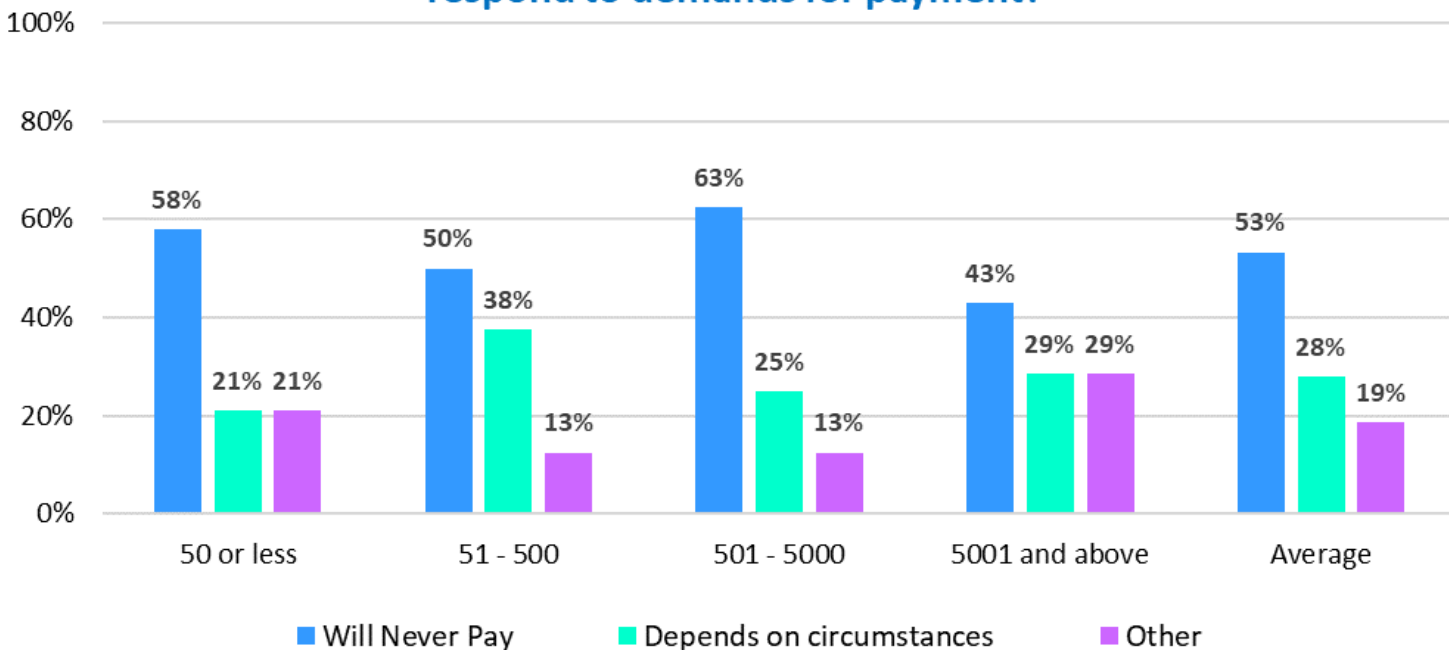

In the event of a ransomware attack, how would your company respond to demands for payment?

Global Industry Practices Committee (GIPC)

Ransomware Attack Response – By Size

In the event of a ransomware attack, how would your company respond to demands for payment?

Global Industry Practices Committee (GIPC)

List of “Others” for Ransomware Attack Response

Distributors

- We do not plan on paying, but I wouldn't say never
- We have insurance against ransomware
- You cannot pay and get your data back. Advanced ERP systems are broken. Have great back up database and spend your monies switching to that.
- Prefer to not state publicly

Manufacturers

- Our IRP calls for the involvement of legal on a global scale

Manufacturer Representatives

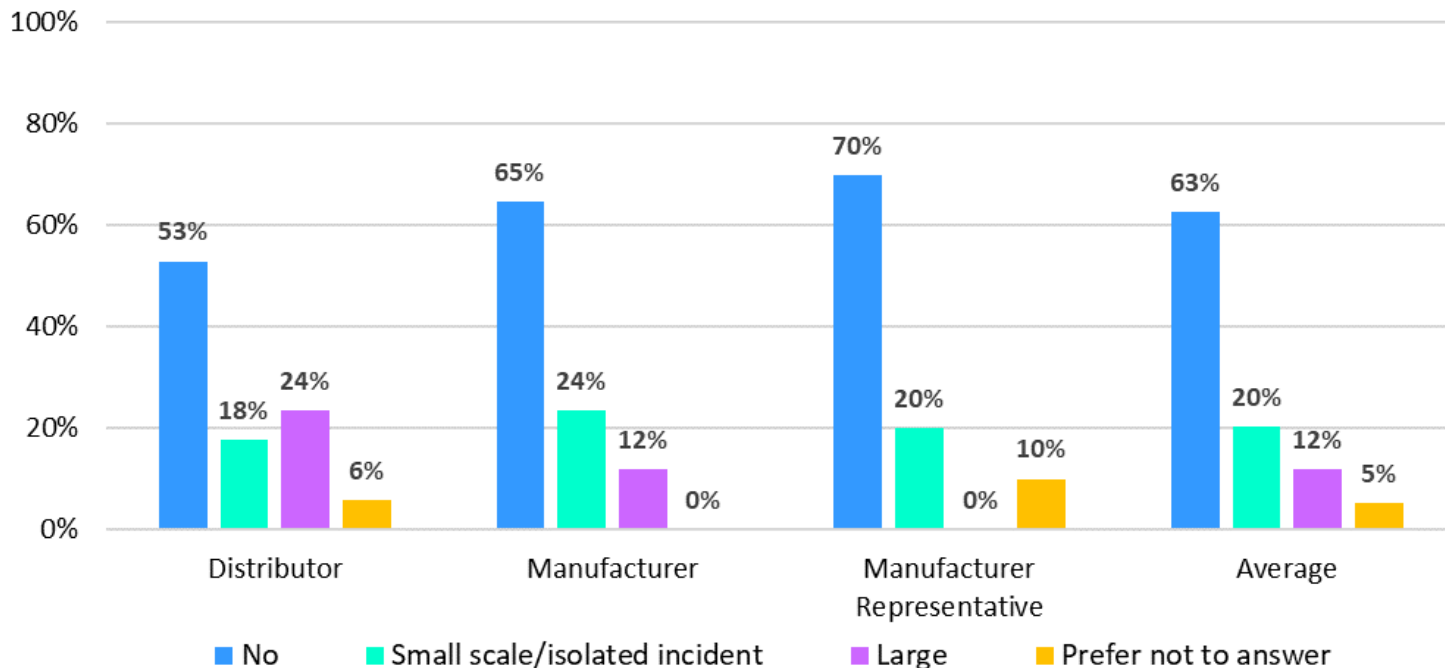

- Corporate would decide
- Refer immediately to our IT company. We had a ransomware attack, and our IT company disarmed it.
